## Additional Funds For More Airport Work Are Sought

At their meeting last week, directors of the Truckee Tahoe Airport District took steps to apply for another $97,000 from the federal aviation agency to construct Phase 3 of the new airport just south of Truckee.

This fund, if approved, will be matched by approximately $82,000 from the district for a total of $179,000 to be used for holding pads, drainage, turnoffs and a taxiway 6000 feet long and 50 feet wide.

The first two phases of the project included the runway and extension and other facilities now under construction and which are expected to be completed early this summer to provide use of the airport during construction of future phases.

Application for the federal matching fund must be made prior to March 15.

It is the desire of the board, according to Director Zeph Rose, to have the port completed under six phases, the last three being for parking additions, paving of a hangar area, water supply, a terminal building and other facilities to bring the airfield up to highest standards. The estimated cost of the six phases has been estimated at approximately $900,000.

The next meeting of the board will be held at the Lake Tahoe Sierra Chamber of Commerce office in Kings Beach.

## Dr. Wyatt Hunted As Bail Forfeited In Abortion Case

RENO — A $10,000 cash bond posted for Dr. Thomas D. Wyatt while he was fighting a charge of attempted abortion has been ordered forfeited by District Court Judge Grant L. Bowen.

The order was handed down Monday after Washoe Sheriffs reported that Wyatt could not be found. Bowen had ordered that Wyatt surrender himself last week to begin serving a 1-2½ year prison term for the felony.

Wyatt was convicted Feb. 17, 1961, in Washoe District Court for an alleged attempt to abort a woman agent working for the Washoe District Attorney's office. Wyatt was arrested by deputies Aug. 11, 1960, at his home-office at Lake Tahoe.

After the conviction Wyatt appealed to the Nevada Supreme Court. The appeal was denied last December and a petition to review the action was denied Jan. 25.

Wyatt has since lost his license to practice in Nevada after the Nevada Board of medical examiners examined charges against the doctor for malpractice.

Last week Drake DeLanoy, chief deputy district attorney, requested the assistance of the U. S. Attorney's office to aid in the apprehension of Wyatt. Since then the FBI has been called in to aid in the apprehension.

## Squaw Criticism Unfounded, State Official Declares

Assemblyman Glenn E. Coolidge of Felton said Friday, according to the Associated Press, that he has called a meeting March 14 of the Joint legislative audit committee to investigate reports the state is losing $25,000 a month at Squaw Valley.

"The information that we have, furnished us by the office of the auditor general, indicates we are going into the red about $25,000 a month," said Coolidge, the committee chairman.

"That $25,000 a month is just too much money to keep throwing down a ski slide," he declared.

The state division of beaches and parks contracted with two firms after the Olympic Games. Alex Cushing operates the ski lifts and Newsome & Pelosi Co. runs the hotel, bar and restaurant. The state receives rental fees and a percentage of the gross income and pays the maintenance.

Governor Edmund G. Brown's budget indicates that concessionaires at the resort will pay the state about $100,000 during 12 months starting July 1, about $262,00 less than the state put into the operation.

Park division officials contend that no state park is self-supporting. They say, though, that Squaw Valley is the nearest thing to it and may some day break even as it is developed for summer use as well as a winter sports area.

**Denied by DeTurk**

Charles DeTurk, head of the state department of parks and recreation, said Monday that the charges that the state is losing heavily on its Squaw Valley operations are misleading.

"We aren't losing money, we are spending money," DeTurk declared. He said a large percentage of the money is returned to the state through gasoline, sales and business taxes on money spent by tourists lured to Squaw Valley by other state facilities.

Dr. Tapia, a member of the committee, this week said that as the first step following the formation of the district he would suggest that an area-wide survey be conducted to determine what is needed to improve local recreation facilities and to promote facilities now available.

"This is not proposed as a crash program," N. F. Dolley, chamber manager, declared. "It should be designed as a long-range operation and include benefits for every part of the district."

The month of February promises to make up for the shortage of moisture recorded during the earlier months of the fall and winter season and yesterday this area had 75 percent of normal precipitation for this time of the year.

The U. S. Forest Service office at Truckee reported the total precipitation for the storm which started last Thursday was 6.64 inches. This brings the total for the season to 15.36 inches while the normal for the end of February, with still half the month to go, is 22.75 inches.

Most of the moisture recorded here was in the form of rain and wet snow. There were 18 inches of snow on the ground yesterday, all of which came during the week's storm. A year ago on this date there were 14 inches of snow on the ground in Truckee.

During the early part of the series of storms last Friday and Saturday, Highway 40 over Donner was closed a number of times due to vehicles being stalled. The California Highway Patrol reported numerous minor accidents as a result of the slushy snow on the roads.

**HEAVY SNOW ON SUMMIT**

The Central Sierra Snow Laboratory on Donner reported 107.5 inches of snow there yesterday morning, which is about normal for this date. There were 29.1 inches of precipitation registered in the 107.5 inches of snow which brought the accumulated total for the year to 35.32 inches from an accumulation of 254.8 inches of snow during the year.

A few more inches were reported on Donner Summit but the water content was less than at the snow lab.

TAHOE CITY— For the first time since November 15 the water in Lake Tahoe reached the natural rim and the level of the lake yesterday morning, according to Daryl DeWalt, the cooperative observer, was 6223.24 or .24 of a foot over the rim.

Precipitation from the 34 inches of wet snow and rain at Tahoe City was 8.85 inches. Last year's precipitation up to February 12 was 3.30 inches.

The lake rose .49 of a foot during six days, the fastest rise recorded there since 1955.

## POSITION ARE OPEN FOR FAA CAREERS

President John Kennedy has asked the federal aviation agency to implement various new concepts into the continuously developing federal airways system. The system, which is meeting the challenge created by the rapidly increasing volume of air traffic and the expanding use of jet transports, consists of a national network of communications, navigational aid and radar equipment. This equipment provides the 220,000 miles of aerial highways within the federal airways system.

The FAA program of modernizing the federal airways has created many outstanding career opportunities for graduate civil and electronic engineers and for qualified technicians. The electronic technician must have as a minimum requirement technical knowledge (including electronic theory, receiver an transmitters, math, etc.) comparable to that obtained in a two year Electronic Technical course.

Additional experience is qualifying for the higher level positions. A special need exists for Electronic Technicians and Engineers with radar experience. Starting salaries for these positions range from $4345 to $7560.

## PLACER WILL OPPOSE URBAN AFFAIRS PLAN

AUBURN— Placer County Supervisors have gone on record in opposition to President John F. Kennedy's proposal for creating a department of urban affairs. At Tuesday's meeting, board members voted to send telegrams to the county's congressional delegation.

County Executive John M. Bernard said many local governments were opposing the department of urban affairs because it would bring more central control over local matters.

## WATER DISPUTE AT SQUAW IS IN COURT

AUBURN— The Squaw Valley Mutual Water Company has filed a lawsuit against Wayne and Gladys Poulsen and a land company they head in a controversy over water rights and management of the local water company.

The suit charges the Poulsens, John Starratt and Victor and Florence Poulsen with not giving a proper account of money spent in installing the waer system and with drilling a well too close to the existing water supply.

Directors of the water company filed the complaint for declaratory relief regarding water contracts, $20,000 in damages and a temporary restraining order form interferring with the water supply.

L. R. deGallery, your Telephone Manager in Tahoe City

Direct Distant Dialing Coming to Lake Area This Summer—
The Area Code for the Lake Tahoe Communities Will Be 916

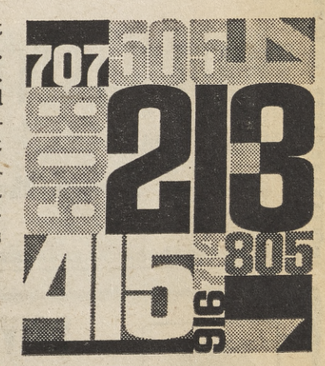
Pacific Telephone customers in Brockway, Tahoe City, Crystal Bay, and Truckee will be able to dial their own long distant calls this summer.

Customers in Homewood are scheduled to get Direct Distant Dialing around the end of this year.

At the same time, pay booths will be simplified to pre-pay arrangement. Under the new system pay phone customers will deposit their money to get the dial tone before the call is made.

Pamphlets will be mailed with telephone bills before the the change is made, giving full instruction on Direct Distant Dialing

* * * * *



**People often ask me** what are telephone area codes. Well, here's the answer. The country is divided into telephone areas—each has a different number called an "AREA CODE". This code is a vital part of your telephone number—it tells what part of the country you live in.

You don't have to use an area code if you're calling a telephone number located in the same code area as yours. But when you dial another area, it's necessary to dial that area code—then the rest of the number. Our operators too must dial area codes. If you place a call with the operator, giving her the area code first will help in putting your call through faster.

* * * * *

**Imagine spending 8,760 hours** on the phone. It might seem impossible (to anyone but a teenager). Yet a survey shows that's how many hours the average man in his lifetime spends telephoning.

This in itself is a good case for having extension phones wherever you need them to save steps.

So if you want to make your telephone hours more enjoyable, find out about extension phones—in colors and different styles—for your home or office. Call your business office or ask your telephone service man.

## PARKING SIGNS AT VALLEY NECESSARY

The safety of people living in houses and lodges at Squaw Valley State Park requires that access to fire hydrants and to fire and service roads be kept open.

Restrictive parking signs are placed in all areas where access must be made. Violations are enforced by the California Highway Patrol and by state park authorities, the Division of Beaches and Parks warns.

Public road operations are needed to provide more adequate protection for the visiting public and to avoid congested conditions which exist when visitors fail to use the parking facilities provided.

## EMPLOYERS WARNED ABOUT DEPOSITARY

Employers liable for income tax withheld and social security taxes in excess of $100 for the month of January must deposit such taxes with a depositary, District Director Joseph M. Cullen of the Internal Revenue Service in San Francisco reported today.

Stressing the importance of compliance with deposit deadline of February 15, 1962 Cullen added that a form 450 should be used for this purpose.

Deposits may be made in local authorized banks, or federal reserve banks, said Cullen.

## BARREL STAVE RACE SET FOR DEER PARK

DEER PARK— It'll be a red-letter day at the Deer Park Powder Bowl Ski area Saturday, February 17th, when the 3rd Annual "Barrel Stave Olympic Slalom" will be staged.

Red is certain to predominate as the "Olympic Torch" (Powder Bowl version) will be transported from Alpine Meadows by four shapely beauties attired in red leotards.

Co-sponsoring the unique event with the Powder Bowl Ski Club is the Paul Masson Vineyards of San Francisco. The latter will have men brewing Glug Wine outdoors for the warmth and refreshment of the assemblage during the Saturday afternoon competition. The event will be thoroughly patrolled.

Anyone can enter a team of three (2 men, 1 woman). All racers must be over 19 years of age and one member of each team, 21 years or older. The team with best total time will be the winner.

## PLACER OFFICES TO BE CONSOLIDATED

AUBURN— The board of supervisors has consolidated the county coroner's office with the sheriff's department and the public administrator's post with the district attorney's office.

The merger of the coroner's office was made on a 4 to 1 vote with Supervisor Robert Radovich opposed. The vote on the combination of the public administrator's office with the district attorney's was unanimous.

Four supervisors indicated they felt the consolidation of the coroner's position, which will abolish the elective position now held by George Lambert of Roseville, is in the best interest of the county.

Supervisor Thomas Doyle said he has been told the ideal setup is the joining of the coroner's office with the sheriff's and when the county becomes large enough, a salaried position of coroner should be established.

The consolidation will become effective beginning in 1963.

# DONNER DOINGS

By VIRGINIA O'BEAR

We enjoyed getting away for a few days last week, visiting relatives and friends in Kentfield, San Francisco and Santa Rosa. It was good to see all the folks but oh, so good to get back home! The swirling fog and the constant rain kept us girls busy rolling up our hair as it just doesn't stay "put" even with all of the spray net! The boys all went to the Sports and Boat Show at the Cow Palace and our son Mike caught his limit of two fish there. All in all, we had a wonderful time and especially enjoyed visiting all of the little shops in Sausalito. That Village Fair is some place and you see all kinds of characters there!

The Donner Lake Firemen have been meeting every Sunday to work on the equipment and firehouse. They had a regular firemen meeting last Thursday evening and they are getting everything in ship shape! They cleaned up the firehouse last Sunday in preparation for Tuesday's elections and auxiliary members Ozella Slate, Jerie Bonano, Laura Horman and Virginia O'Bear volunteered in assisting with elections Tuesday, February 13th. Results announced elsewhere in Sierra Sun. You better watch these firemen, they are going places and are really on the ball! (Fireball, that is!)

The Auxiliary of the Donner Lake Volunteer Fire Department will meet this Thursday, February 15th at the Church of the Mountains in Truckee. Dinner will start promptly at 7:30 and judges for the craziest hats will be Rev. and Mrs. Clarence Crawford. First, second and third prizes will be awarded, and it is also election night. Don't let the snow stop you members now, we have been "snowed" before and we can take it, huh? The officers board meeting was held Monday evening at the home of Bess Reid, being the last for this group and a good time was had by all. Even Nancy Brodie weathered the storm and came over from Dollar Point-

Quite a few people have already signed the petitions being circulated for a Donner Lake postmark. If you have not yet signed, the petitions can be found at Rex Reid's, Swanson's Realty or see Marcella Corro.

Received a letter from Harold Carles about ten days ago from Boulder City where he was hospitalized after his tragic accident. He said his doctor was letting him return to his home at Los Gatos but he has to remain in traction for about 18 or 20 weeks because the broken bones in his neck controlling the nerves require sound treatments and the traction. He also has a broken back and broken breast plate so it will be some time before he is able to return to Donner Lake. His address now is P. O. Box 1047, Los Gatos, and he would enjoy hearing from you local people around here.

Mrs. Dallas Dennis and daughter left Donner Lake last week to join Mr. Dennis in Oregon. All of them plan to return in the springtime when construction starts again on the new Highway 40 project. Just before the Dennis family left for their temporary home, they enjoyed a going away party at Donner Lake Lodge, hosted by Shorty and Charlotte Harris.

A farewell and dance party for the Burgwin children is being given at the home of Jennifer and Mike O'Bear this week as the Burgwin's are moving to Kings Beach. Steve and Roni Lynn Neifert, Sheila Rosamond and Tom Romo, Barbara and Nancy Randol, Dennis Richards, Karel Sauby, Russell Glen and Debbie Jo Wurst will be invited to the party in honor of David and Scott Burgwin. Cupcakes made by Mrs. Neifert and Mrs. O'Bear will be served with Koolaid by host and hostess, Mike and Jennifer. The two boys will receive a gift from their friends, with good wishes for success in their new school.

# DAIRY FARMING IS ROTARY CLUB TOPIC

TAHOE CITY— Dairy farming in the United States was the subject of the program at a recent dinner meeting of the Tahoe City Rotary Club held at Tahoe Inn.
A color film provided by club member Ric Giannini was run by Basil Kehoe, showing various breeds of cattle grazing on summer meadows, followed by a mechanical milking scene. Following this was the mechanical processing of milk and its various products, including one thousand kinds of cheese.
According to information from the local milk distributor at this time there are 30,000 dairy farms in the United States, with a total of 900,000 milk cows.
Cliff Anderson, senior active with thirteen years of Rotary service, was the honor member at this meeting. He came to the lake 23 years ago to start an electrical business. Prior to coming to Lake Tahoe he worked with Bell Telephone, maintaining a repeater station at Colfax.
President Gordon Moyer presided at the meeting.

## Gary Gunkel Wins At Big Bear Races

KING BEACH— Gary Gunkel of Tahoe Vista, racing under the banner of the "Tahoe Sierra Dog Derby" returned home from Big Bear Lake after a weekend of winning dog sled races held there. Gunkel won the featured long distance race, the lead dog contest, and was a part of the winning relay team. Lee Fishback, owner of the Zima Kennel's dog team in Grass Valley was Gunkel's team mate and is also entered in the Tahoe Sierra Dog Derby, to be held March 10th and 11th at the North Lake Tahoe town of Kings Beach.

In addition Gunkel placed second in the sprint race, third in the freight and scavenger races, and was awarded the outstanding team trophy of the two day event. Ann Gunkel, Gary's wife, didn't rest upon his laurels as a "Musher", but won her own first place trophy in the women's race. All of the winners and many other fine dog sled competitors at Big Bear Lake have entered the Tahoe Sierra Dog Derby.

Lloyd Van Sickle, champion Dog "Musher" who races for the Capitol Cafe in Truckee said that he had contacted Ernest Herringfeld, president of the American Dog Derby Association, Ashton, Idaho and confirmed plans for three teams from the state of Idaho. Veryl Dayton and Ted Allen of St. Anthony, Idaho have also entered the revival of dog sled racing at North Lake Tahoe.

The recent entries of Lonnie Goss, Gardnerville, Nevada, Doug Bard, Williams, Arizona and Eugene Schultz, Topanga, California swells the Tahoe Sierra Dog Derby entry list to 15 teams.

Stockton is California's only deep-water inland port.

## DONNER DEPARTMENT CONDUCTS ELECTION

By VIRGINIA O'BEAR

Despite the bad weather Tuesday evening, there was a good turnout for the firemens election for three board members of the Donner Lake Volunteer Fire Department. Anthony St Claire, Richard Walker and Ivan Tofft were reelected for another term.

The nine man board now consists of Dr. Ray Wiser, president; Hap Warnke, fire chief; Dr. Robert Affeldt, Arnold Verdi, Anthony St Claire, Ivan Tofft, Richard Walker, Charles O'Bear, and George Brack. Secretary is Janet Franklin.

Everyone enjoyed voting and inspecting the fire house and seeing all of the recent work the firemen have put in. All of the equipment looks ship-shape and ready to roll in case of fire. The washroom is all framed in and as weather permits, the septic tank will be put in as well as the wash room fixtures installed.

Laura Horman, Jerie Bonano, Ozella Slate and Virginia O'Bear assisted with the election and served coffee to the voters.

**Bicycle Found—**

Sergeant Roy Waters reports that officers are holding a girl's green bicycle, which was recovered near the Truckee river several weeks ago and that the owner may have it by identifying.

### CARD OF THANKS

On Thursday afternoon, February 1st we had an unfortunate fire at our office and model home, at Pla-Vada. Many of the fine people of the Donner Summit area and elsewhere, volunteered and assisted in the suppression. We take this opportunity to express to them, many who are unknown to us, our sincere thanks for their prompt and valued assistance. This is but another example of how the people in this area will come to the aid of those in need.

Most appreciatively

## SOUTHERN PACIFIC IS ABANDONING TRAINS

An announcement by the Southern Pacific Company that it will abandon the Overland Limited schedule between San Francisco and Salt Lake City on March 8, is being opposed by George Allard, public service commissioner for Nevada.

Allard said he is opposed to the discontinuance unless the railroad can absolutely prove it is necessary.

No official announcement by the interstate commerce commission has been made but the railroad has announced it will stop service on March 8.

The Southern Pacific wants to drop the service because the time schedule is within a few hours of that of the City of San Francisco.

The San Francisco National cemetery in the Presidio of San Francisco, was the first national cemetery in the West.

## OPTIMISTS CLUB AT LAKE JOINS CHAMBER

KINGS BEACH— The newly chartered Optimists Club of Lake Tahoe, took their first stride in community service this week by joining the Lake Tahoe-Sierra Chamber of Commerce. William Ellisen, President of the Optimists, and Harvey Price, a director of that group met with Fred Schultz, chamber manager for the membership ceremonies at the chamber's office.

This action by the Optimists was according to their international policy of community service and "service to the boy." The club membership voted after a Chamber of Commerce program at the first regular meeting of the group, where Fred Schultz spoke to them regarding the part the Chamber plays to advance the area it represents. He outlined the many benefits which could be derived from a Chamber membership when the member made the proper use of chamber facilities.

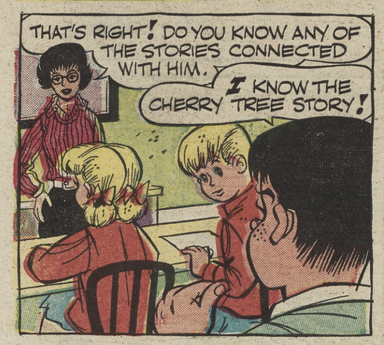
I'M SURE YOU ALL KNOW THAT GEORGE WASHINGTON'S BIRTHDAY WILL BE CELEBRATED THIS COMING WEEK...

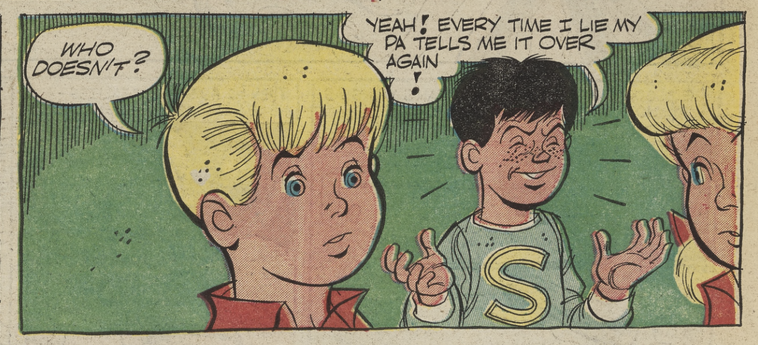
I'D LIKE TO KNOW JUST WHAT YOU CHILDREN KNOW ABOUT HIM.

HE'S THE FATHER OF OUR COUNTRY!



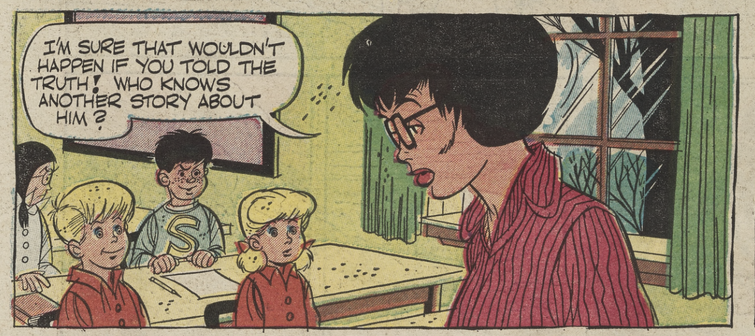
THAT'S RIGHT! DO YOU KNOW ANY OF THE STORIES CONNECTED WITH HIM.

I KNOW THE CHERRY TREE STORY!

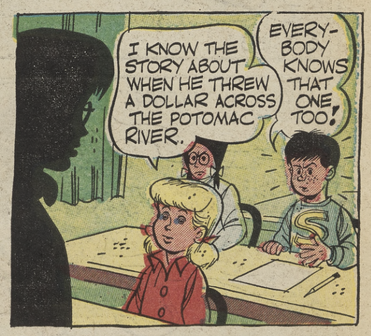


WHO DOESN'T?

YEAH! EVERY TIME I LIE MY PA TELLS ME IT OVER AGAIN!

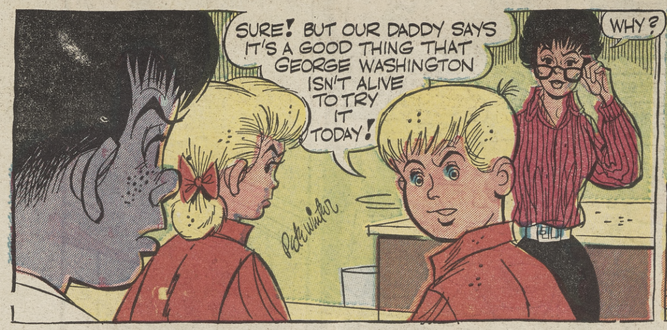


I'M SURE THAT WOULDN'T HAPPEN IF YOU TOLD THE TRUTH! WHO KNOWS ANOTHER STORY ABOUT HIM?



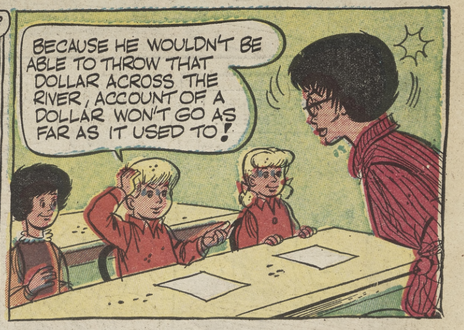
I KNOW THE STORY ABOUT WHEN HE THREW A DOLLAR ACROSS THE POTOMAC RIVER.

EVERY-BODY KNOWS THAT ONE, TOO!



SURE! BUT OUR DADDY SAYS IT'S A GOOD THING THAT GEORGE WASHINGTON ISN'T ALIVE TO TRY IT TODAY!

WHY?



BECAUSE HE WOULDN'T BE ABLE TO THROW THAT DOLLAR ACROSS THE RIVER, ACCOUNT OF A DOLLAR WON'T GO AS FAR AS IT USED TO!
